Help your child develop clear, more confident speech this summer! Our small group articulation sessions are designed to support correct sound production while keeping kids engaged through fun, structured activities.

Sessions will focus on the correct production of speech sounds as we progress through articulation in building speech sounds in specific word formation, to sentence production, and then conversation.

The goal of this 6-week group is to develop confidence in your child's ability to articulate speech and language confidently so they can carryover their learned skills into everyday speech and communication!
